Account Team	Build the Goals Objectives and tasks in Revegy	Rest of the Day

Who	What	Time
Every Account		
Orchestrator and Team	Present your Account Plan as If you were presenting to Pete Carrier - Relationship Map - Customer Strategy Map - Goals Objectives and Tasks Everyone on the room will provide coaching and ideas	60 minutes per Account

The Challenge

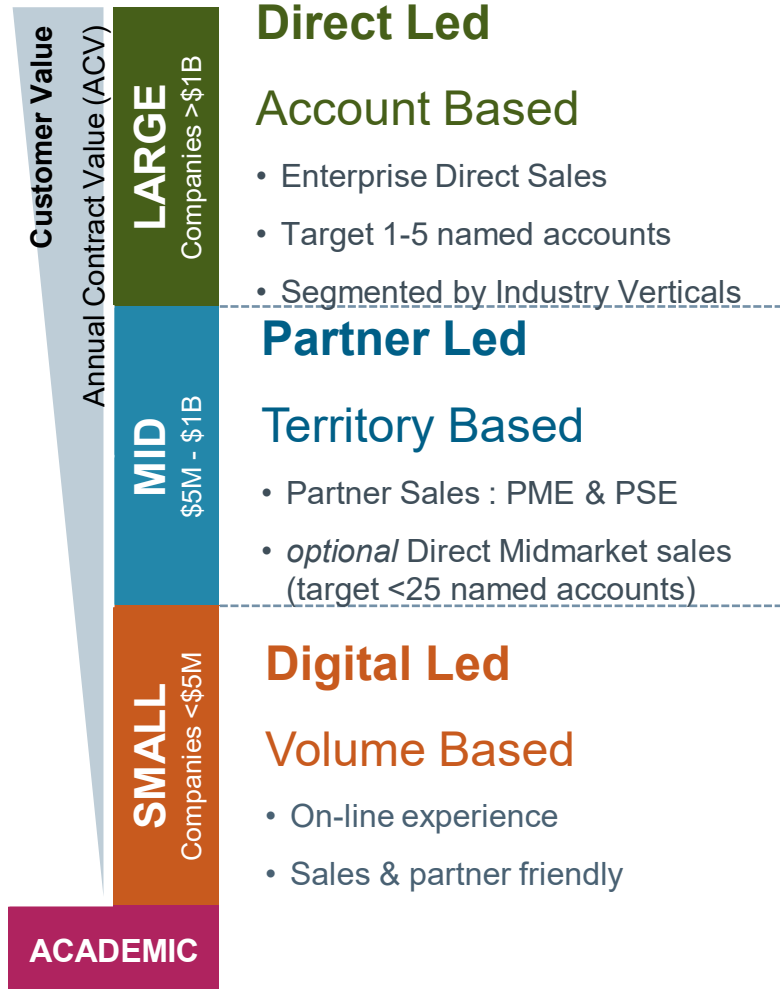

Too Many Accounts

Too Many Products to Sell

Too many PFDs
promoting their products

Actionable approach to strengthen & focus coverage model

- 1 INCREASE DIRECT SALES CAPACITY & FOCUS**
 - Increase # of Enterprise account orchestrators
 - Refine # of accounts for strategic focus, strengthen AOP, increase portfolio coverage, leverage others
- 2 INCREASE TERRITORY SALES CAPACITY & FOCUS**
 - Increase # of Partner Sales Executives (PSE's) to scale geographically, strengthen partner sales, prepare for SaaS
 - Transition direct territory midmarket sales to named account model or PSE
- 3 STRENGTHEN PARTNER COVERAGE, CAPACITY & FOCUS**
 - Increase the # of Smart partners (target minimum of 1 partner per solution in each country), reduce transactional partners
 - Recruit new Solution Providers – not Resellers
- 4 STRENGTHEN FUNTIONALITY OF ON-LINE STORE**
 - Make sales friendly (supporting both direct & partner sales)
 - Strengthen on-line capability to reach underserved markets

THE GOAL

Increase direct sales focus and capacity, expand portfolio coverage

ACTIONS:

- Identify named accounts
- Refine # of accounts per orchestrator, targeting <5 for enterprise and <25 for midmarket
- Leverage Account and Opportunity Plans to maximize account revenue leveraging all PL portfolios, maximizing lifetime value

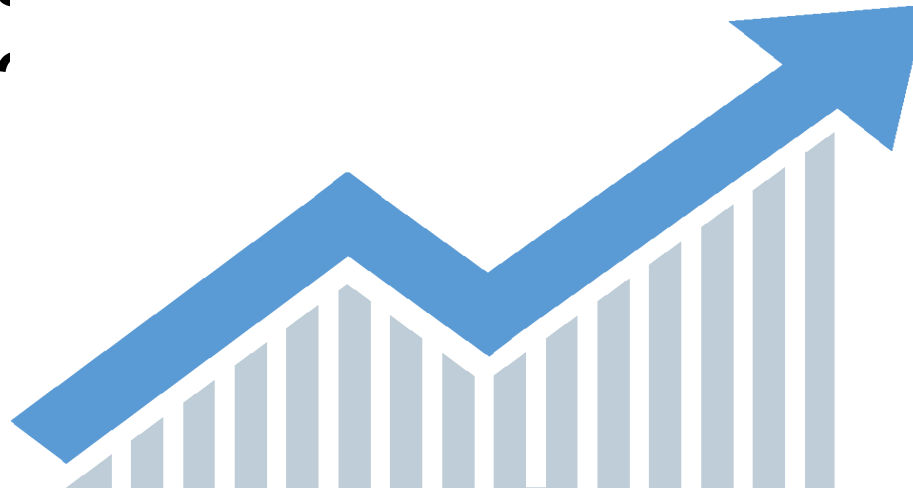

What defines an “Orchestrated” Account?

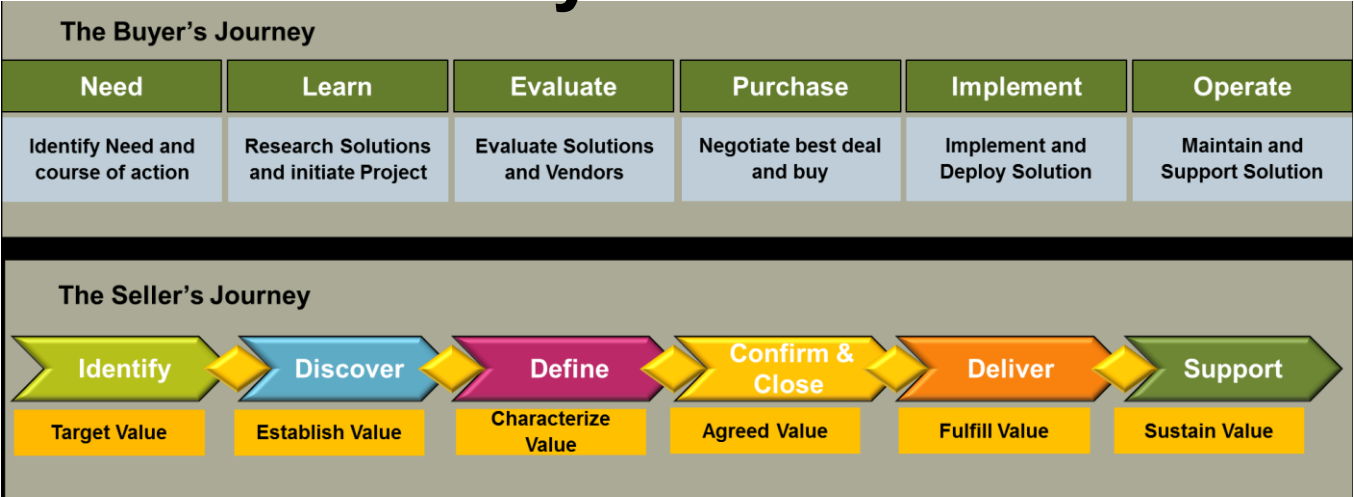

- A high potential customer or prospect
- Typically a company with >\$1B in annual turnover (threshold may vary by country)
- They can buy the full PLM portfolio within their business & supply chain
- Strategic future-looking potential, not just large
- Significant 3-year revenue potential
- Dedicated sales orchestrator with an Account Plan and supporting resources to execute

How has your
customer's
world changed
in the last
years'

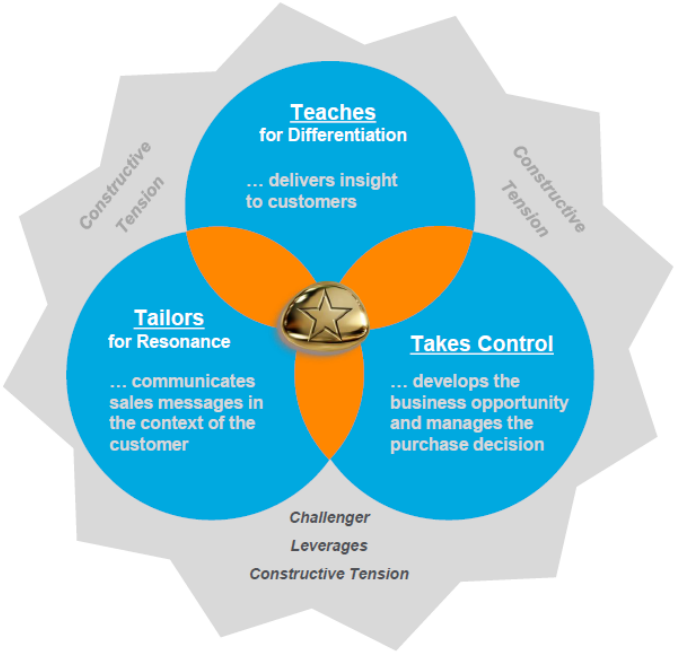

How have these
changes impacted
the way our
customers interact
with you?

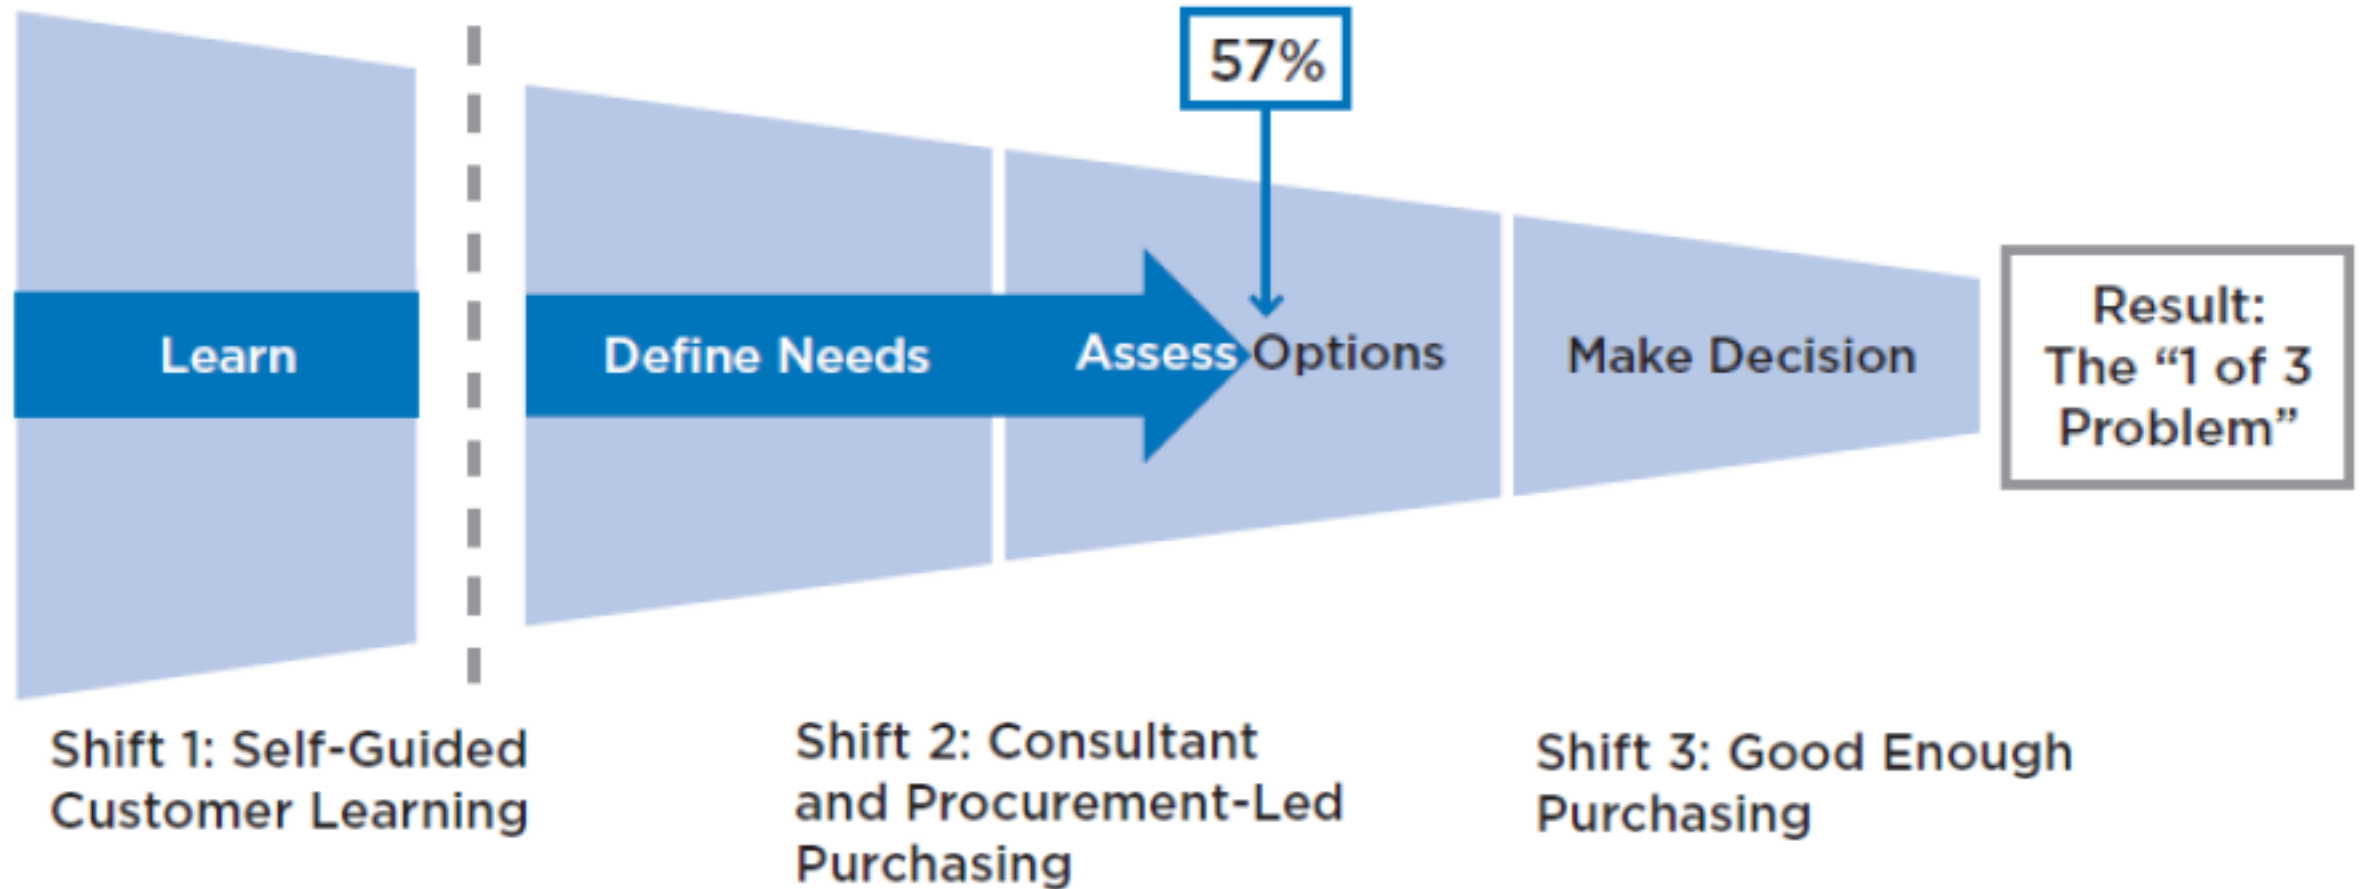

The way we will sell

Business you make | Business you find

SVS Engagement Framework for Portfolio Suspects

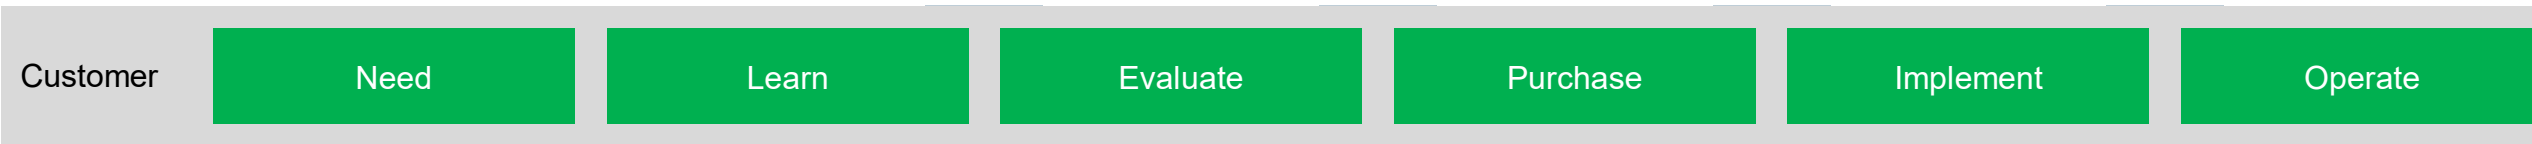

SVS Engagement Framework

What the customer wants from an Account Team.

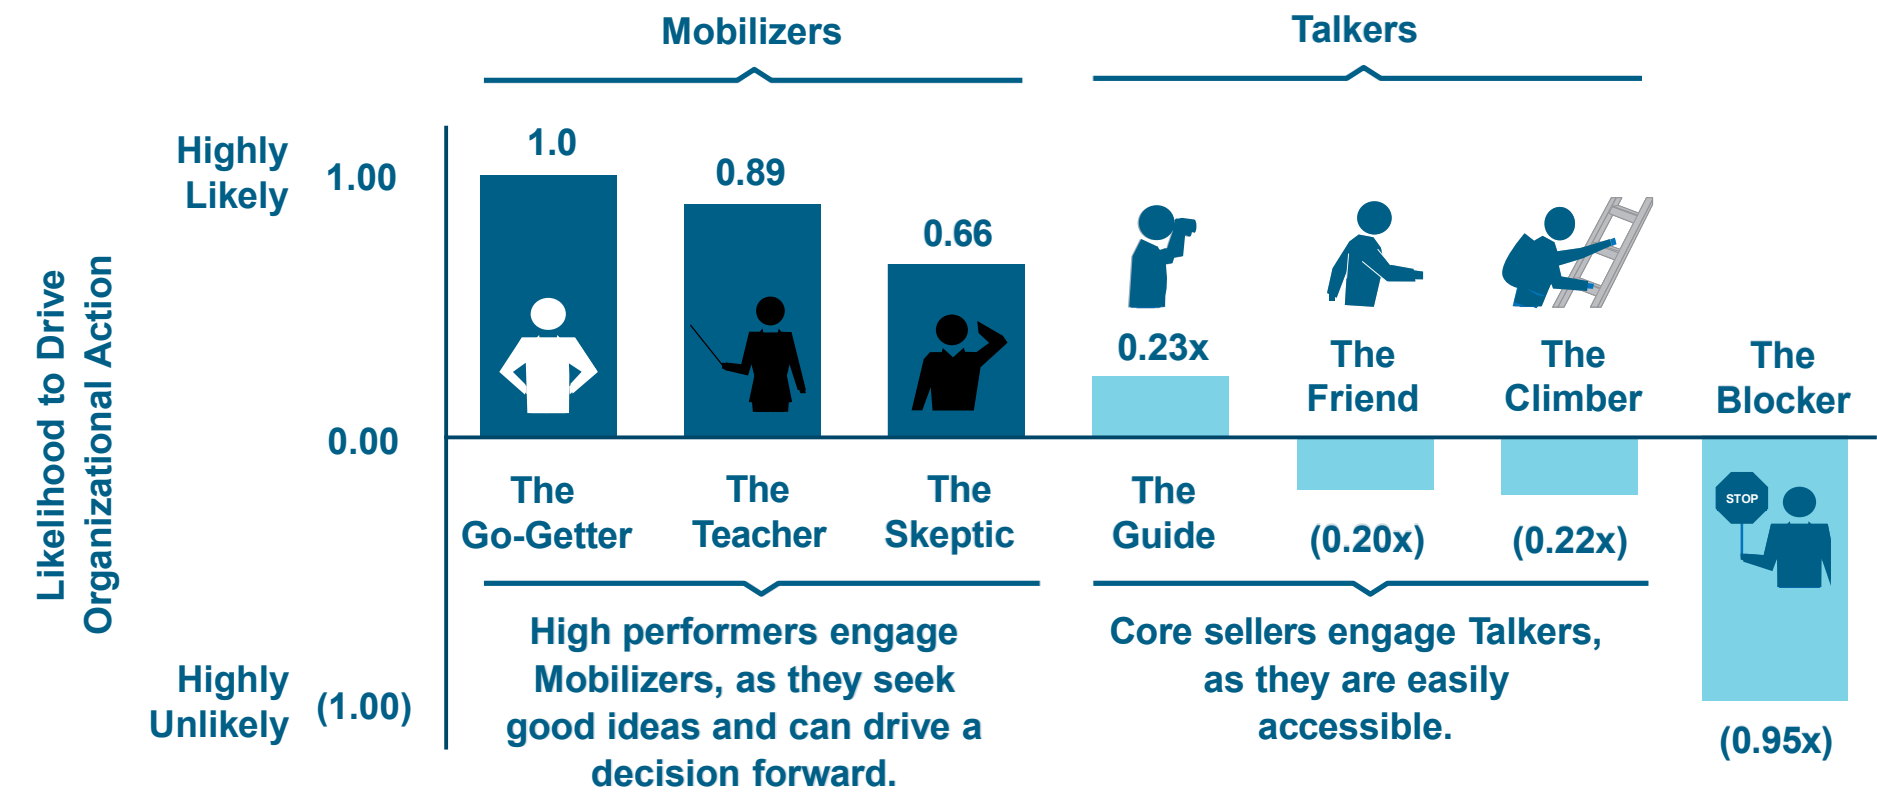

Research my business and my market and your customers similar to me then

1. Unsolicited, bring me valuable **Commercial Insight** on my business and/or market
2. **Teach me** about new issues that impact my business
3. **Bring me unsolicited proposals** that shows me that may I have a problem or opportunity that if resolved, will add significant value to my business. **Then I will decide if I want to invest further time.**

- **Establish the Value to my business** before you propose a solution.
- **Teach** my stakeholders
- **Gain consensus** among my stakeholders by **Tailoring** messages that resonate
- **Lead my organization to VALUE by Taking Control**
 - To help my stakeholders navigate alternatives
 - To help my stakeholders avoid potential mistakes
- **Then, propose your unique solution** along with your plan, the likely costs, how much money I will make or save, the risks and the critical success factors.
Then we will decide if we will invest time Evaluating your proposed solution(s)

conversations

The Orchestrators Accountabilities

Lead a Team of people to maximize our share of wallet from a very small number of accounts.

Who are Key Stakeholders?

- Who are the MOBILIZERS TALKERS and BLOCKERS

What is the Customer's Strategy?

- What are their market opportunities and threats?
- What are their Goals and Objectives
- What Business Initiatives have they funded?

How can we help?

What is our unique value?

Focus on C-Level Selling

Make sure your team understands the business value that our solutions deliver? The compelling business reason why the customer will buy.

- Make Money
- Save Money
- Improve Quality
- Maintain Compliance

Orchestrators cannot lead without a PLAN

Orchestrator with a plan

EVERYONE works in harmony because they understand

- Who are Mobilizers, Talkers and Blockers
- The customers business strategy
 - Their Market, Goals, current and future initiatives
- How we can help
- Our Commercial Insight(s)
- Where their Portfolio fits into the “big picture”
- We disengage fast
- We demand a higher price when we win
- The Customer views us as a business advisor

Orchestrator without a plan

Everything is “last minute”

- Every Opportunity is 57%
- We take too long to lose
- We spend too much time with Talkers & Friends and 70% of Opportunities close Disengage
- We heavily discount to win
- We sometimes sell what we cant deliver
- Few people understand the “big picture”
- The customer views us as a Vendor

A simple truth

Failing to plan is planning to fail
凡事预则立，不预则废
Benjamin Franklin

Every battle is won before it is fought
孰胜孰负 未战先知
Sun Tzu..
